## ABOUT A THOUGHT FOR FOOD

A Thought For Food was started in 2009 as a way for me to share my experiences with food and cooking. As a pescatarian, my goal is to share fun, flavourful original vegetarian and seafood recipes that aren't complicated to prepare. Through my photography, I also use this space to educate people about food production, how ingredients are grown, and what food communities are like around the world.

## Partnerships

Collaborating with food and beverage brands is something I've been doing ever since I started my blog back in 2009. I hold these relationships close to my heart and consider it to be one of the most enjoyable parts about food photography and blogging. I see these collaborations as a way to learn more about a brand, how they develop their product, and to educate my readers about these companies and provide them with recipes utilizing these products.
